

SplitSmart Group 3

Meeting Date: 7/27/23

Minutes Prepared By: Cristian Balan

Purpose of Meeting:

- Implementation for project continues
 - Worked on own branches/ in a VS Code live share to continue progress of the implementation.
- Zane and Xavier:
 - Worked on making the user model link to the profile model to allow for extended fields to interact with the user.
 - Worked on making additional models that are used when requesting payments or sending payments to other users.
- Christian and Leo:
 - Worked on the front end for the send payments or requests pages as well as refined stylization elsewhere.
- All:
 - Prepared test cases and prepared what would be added to the demo.

Attendance at Meeting:

Name	Team
Cristian Balan	Group 3
Zane Richards	Group 3
Xavier Evans	Group 3
Leonardo Diaz	Group 3

Meeting Notes, Decisions, Issues:

- Worked cooperatively on ensuring the group was able to continue implementation and allow for efficient progress.

Link to github project folder used for implementation:
<https://github.com/Xevans/smartSplitapp.git>

Open Questions, Tabled Items, Outstanding Issues:

- What should the presentation look like for the demo on 7/31/23?
